Art classes with Ghaff Kids is a unique creative art and drawing program for kids. The well-researched curriculum with a structured step-by-step training methodology through art classes for kids that helps them explore their ideas, express them and create independently. Using their inherent love for drawing and colouring, Ghaff Kids Art activity trains children to be more creative and builds the foundation for them to be the innovators of tomorrow. This programme offers drawing classes for kids as an extracurricular activity where kids will be able to navigate successfully in an increasingly competitive world.

Abacus

Ghaff Kids truly believes that the future of our children lies in their early mental development. Children need to equip themselves with the "building blocks" of global thinking by optimizing and integrating their left & right function of the brain during the early years. Their Abacus program aims at enhancing and optimizing the child's hidden potential such as their imagination, creativity and computation skills to evoke their senses to comprehend. Abacus is an educational tool, so with the help of abacus children can learn fast calculations and numbers with fun. The child uses his or her fingers to move the beads on the abacus and this collaborative movement of the fingers and the brain are responsible for creating a photographic memory in brain of child. During practice of abacus math calculation, the child uses both his hands on abacus; this movement spurs activity in both left and right brains, thus initiating the development of cells. Such abacus helps in nurturing the brain of the child making them much quicker and accurate in this process.

Arabic

Ghaff kids Arabic course is a great way to learn Arabic online for kids. Empower Children with the Arabic Language. Ghaff Kids is the fastest and easiest way to teach children Arabic from

home. As they progress, children begin to understand and memorize more than 1000 essential Arabic words and phrases — each of them for its relevance and utility in day-to-day use. All lessons and materials are created by professional Arabic speakers which are easy to understand. Through clear instruction and engaging lessons, kids can quickly develop a keen ear for the Arabic language and proficiency in reading, speaking, and writing. The innovative learning methodology used in Ghaff Kids has been developed by language and learning experts. The program is designed to make learning a second language simpler. Both children & adults can benefit from Ghaff Kids, even if they don't speak Arabic. Age is no limitation either, though we have found that younger children learn faster.

French

Seize the golden age of learning of your child! Ghaff Kids offer a series of French classes expertly tailored for new learners, arranged by age, providing an excellent French environment for your child to learn the language online. Ghaff Kids is Empowering People to Broaden their Horizons. Ghaff Kids has created a special program to suit the needs of young learners - French for Children. Their dedicated teachers support and encourage students throughout the course while keeping in touch with their parents and updating them on their kids' progress. Learning French is not an easy task for children - whether they are learning it as their mother tongue or a foreign language. Ghaff Kids offer programs to accommodate various learning needs of students. Groups are formed with age and language proficiency in mind. All classes are taught by professional speakers of French who have years of experience in teaching the French language to children.

GhaffKids main goal is to create a friendly and motivating atmosphere where every child is given an opportunity to learn new things, have fun and discover interesting facts about the French culture and its traditions. During the lessons, children are taught important aspects of the language such as grammar and vocabulary. They are trained on the basic communicative skills - speaking, reading, writing and listening.
